

## Project Agenda

- ➔ Engagement of community key persons and Resident Welfare Association members in solid waste management campaigns.
- ➔ Door to door campaigns to aware residents on solid waste management
- ➔ Information Education and Communication (IEC) campaigns in schools, community and religious places
  - ➔ Seek supports from local residents to provide sites for 4 aerobic composters
- ➔ Installation of aerobic composters in sites offered by locals
  - ➔ Compost making from wet waste collected from households
- ➔ Engagement of local Cleaning Workers for solid waste management activities
  - ➔ Regular update of participant data collection and video update for 3 month period
- ➔ Employment of 8-10 unskilled work. Trained and employment opportunity.

 Skill and toll inputs to project workers through in house trainings and workshops

 A step forward towards organic production
